BENEFITS / FEATURES

- Reduces operator walk-round, bending and stretching
- Pallet loads up to 1400mm / 55" or 2800mm / 110"
- Variable layer depth with 'infinite stop' pallet positioning
- Sized to suit any pallet
- Produces square and stable loads
- Strapping of the load can be carried-out prior to removal
- Unit mobility allows one person to position the palletizer exactly where required
- Single 'snap-in' compressed air supply required (100psi/7 bar)
